

# NORTH CAROLINA Solar Center

Advancing Clean Energy for a Sustainable Economy

North Carolina State University | College of Engineering | Raleigh, NC | [www.ncsc.ncsu.edu](http://www.ncsc.ncsu.edu)

The NC Solar Center's Economic Development team offers a wide range of financial assistance services related to renewable energy in the commercial, industrial, institutional, and residential sectors. These services include financial modeling and interactive dashboard tools for North Carolina renewable energy companies and local governments. These tools assist in demonstrating the financial implications of implementing renewable energy projects. The NC Solar Center can assist your organization in making your renewable energy projects a success with:

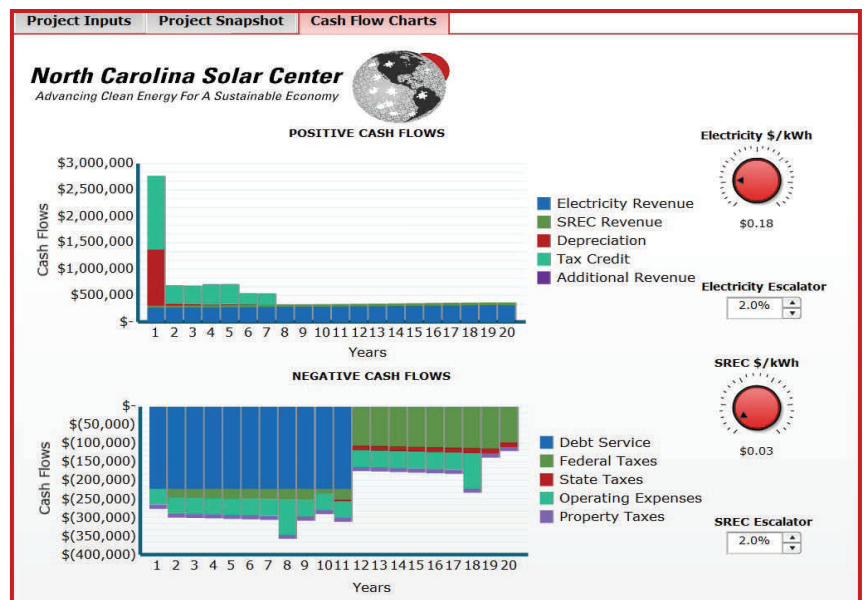

Financial Modeling and Economic Analysis

Visual Calculators

Customized Dashboard Presentation Tools

Financial Dashboard Features Include:

- Interactive Point-and-Click Interface
- Compelling Business Presentations for Investors and Clients
- Dynamic Charts and Graphs
- Excel-based Interactive Visual Project Evaluation
- Portability-Runs On Any Macromedia Flash Player

"Thank you for your dedication and commitment to creating these financial tools for us. We really appreciate all your efforts and considerations. Looks terrific!!" - NC Solar Center Client
